SUMMARY

Entry-level UX/UI Designer with a B.Sc. in Information Systems and an ongoing postgraduate degree in Digital Product Design (UX/UI). Hands-on experience in Figma with wireframing, user flows, interactive prototypes, and Design Systems. Also engaged in building websites and digital solutions using AI tools and no-code platforms, turning ideas into functional interfaces efficiently. Interested in dynamic environments with multiple demands, where I can ensure visual consistency across products and channels and contribute to the continuous improvement of solutions with a user-centered focus.

SKILLS

Technologies & Tools

- Figma — Styles, Variables, Components, Variants, Auto Layout, Prototyping
- AI tools applied to design and website creation
- No-code/Low-code — website and interface building with AI
- HTML/CSS (basic)

UX/UI Competencies

- Wireframing and interactive prototyping
- Design System — creation and maintenance (reusable components, style libraries)
- Prototyping — conditional flows and interactive components
- User flows and navigation architecture

PROJECTS

• [UX Redesign — Spotify Full Library Shuffle](#)

Proposed feature for shuffling the user's entire personal Spotify library, focused on reducing decision fatigue and increasing content variety. Includes user flow definition, interaction structure, and wireframes in Figma. Conceptual project with a user-centered approach.

• [UX Redesign — Improving Login Experience with Persistent Sessions in the Skoob App](#)

Redesign of the authentication flow with focus on persistent sessions and biometric login, reducing friction and improving the experience for returning users. Includes analysis of the current flow, solution definition, and wireframes in Figma.

• [Website Creation with AI \(No-code\) — Mix Bombonas & Santtec Máquinas](#)

Development of institutional websites using AI tools and no-code platforms, focused on content organization, intuitive navigation, and improved user experience.

EXPERIENCE

- **Bão Digital — Digital Marketing** | 2021–2022
Translated client requirements into digital solutions within established visual standards. Implemented content updates on WordPress websites for external clients and created informational content for social media.
- **IT Intern — Avatim** | 2024–2025
Acted as a bridge between users and systems, conducting needs gathering, flow validation, and identification of usability improvements.

EDUCATION

- **Postgraduate Degree in Digital Product Design (UX/UI)** — Anhanguera University
2026, in progress
- **B.Sc. in Information Systems** — UNEX University
2022–2025
- **Psychology (incomplete)** — UNEX University
Completed through the 6th semester · 2019–2021
- **High School Diploma** — Colégio AFI
2015–2017

ADDITIONAL TRAINING

- **Technology Residency in Embedded Systems** — CEPEDI · 2024–2025
- **Web Designer Vocational Course** — Microlins · 2023–2024
- **English Language Course** — YES! · 2012–2013
