SUMMARY

Junior UX/UI Designer with a B.Sc. in Information Systems and an ongoing postgraduate degree in Digital Product Design (UX/UI). Hands-on experience in Figma with wireframes, interactive prototypes, user flows, and Design System, along with website creation using AI tools and no-code platforms. Looking for opportunities in digital product design focused on interfaces that balance visual clarity and navigation logic.

SKILLS

Technologies & Tools

- Figma — Styles, Variables, Components, Variants, Auto Layout, Prototyping and FigJam
- No-code/Low-code and AI tools applied to design and website creation
- HTML/CSS (basic)

UX/UI Competencies

- Wireframe creation and mid to high-fidelity prototyping
- Design System — creation and maintenance (reusable components, style libraries)
- Prototyping — conditional flows and interactive components
- User flows and navigation architecture
- Responsiveness and mobile-first design
- Usability and interaction design
- Design handoff for development

PROJECTS

- [TalentOS — Recruitment Management SaaS System](#)

Interface design for a recruitment SaaS platform (job and candidate management, metrics and interviews): 12 screens in Figma with Design System, navigable prototype and modals.

- [IoT Device Integration — Challenges and Solutions](#)

Case study on interoperability failures between Amazon Echo Pop and LG and Samsung TVs. Includes user flow mapping, friction point identification and proposed Alexa app improvements with wireframes in Figma.

- [Website Creation with AI \(No-code\)](#)

Design of institutional websites with visual hierarchy, responsiveness and intuitive navigation, using AI tools and no-code platforms.

EXPERIENCE

- **IT Support Intern — Avatim** | 2024 – 2025

Remote technical support, sales system installation, SQL Server database queries and updates, and user training. Documentation of procedures with a focus on clarity and usability for the end user.

- **Development Assistant — Bão Digital** | 2021 – 2022

Client website maintenance via WordPress and social media content creation with Canva, focused on content organization and visual consistency.

EDUCATION

- **Postgraduate Degree in Digital Product Design (UX/UI)** — Anhanguera • 2026, in progress
- **B.Sc. in Information Systems** — UNEX • 2022–2025
- **Psychology** — UNEX • Completed through the 6th semester • 2019–2021

ADDITIONAL TRAINING

- **Technology Residency in Embedded Systems** — CEPEDI • 2024–2025 (basis for the IoT integration UX case study)
- **Web Designer Vocational Course** — Microlins • 2023–2024
